# ABOUT THE WRITE OF YOUR LIFE™

*Women Wonder Writers™*

Women Wonder Writers (WWW), a 501(c)(3), created The Write of Your Life,™ a 12-week cultural arts mentoring program for youth affected by trauma and adversity, ages 12-22. The Write of Your Life is designed to instill a sense of purpose by encouraging healthy self-expression, and strengthening critical thinking skills, through art, literacy, and public speaking. The program helps students write about their journeys, gain confidence to reach their academic potential, and encourages them to help their community by practicing tolerance. It is a practical and successful means to helping build resiliency in youth and support schools with social and emotional learning.

## OUTCOMES

### Participants will...

- Become better critical thinkers
- Have an expanded worldview
- Build public speaking skills
- Have stronger command of their voice
- Acquire greater self-awareness
